Circular: Commencement of Robotics, Artificial Intelligence and Emerging Technologies Program for Academic year 2025-26, KG to Grade 9

Dear Parents,
Greetings from City Private School, Ajman!

We are pleased to inform you that we will be providing practical training to our students of KG to Grade 9 in Current and Emerging technologies like STEM Experiments, Electronics, Robotics, Embedded System, Internet of Things, Artificial Intelligence, Mobile App Development, Coding and Design Thinking in collaboration with ARCOMM (www.arcomm.com) a leading technical child skill development MNC, having its presence in USA, UAE, India and Oman. We are providing this program to prepare our students for their future industrial Requirements by making them practically versatile in emerging technologies and preparing them to be student innovators of tomorrow.

Key Points about the Emerging Tech Program-

- Each Grade from KG to 10 will have weekly one session with Arcomm during School hours in a specially allotted period for Emerging Tech.
 - This program is a yearlong program and students will have 36 sessions per year.
 - The cost of the program for the entire year is 300 AED.
 - Each grade will be trained in an exclusive curriculum set for them. KG to Grade 2 will have lots of fun in Science/Electronics/Robotics practical experiments. Grade 3 and 4 will be having practical training in Science/Electronics/Robotics/App Development. Grade 5 to 9 will have practical training Electronics/Robotics/Internet of Things/Artificial Intelligence/App Development/Design Thinking.
 - Every session will have practical training. Students will be introduced to open source coding and hardware. During their course they will build robots, do coding, learn basics of Artificial Intelligence and much more from Arcomm experts.
 - Students will be certified and receive level completion certificate at the end of the academic year.
 - Students enrolled in this program will participate in “City Innovista” Intra School Innovation Competition, Technical expos conducted by Arcomm Nationally and Globally.
 - Trainers from Arcomm will be bringing in the required kits/robots and train the children during respective sessions.
 - The syllabus for the entire program will be sent to parents after they enroll their wards.

This program is solely introduced for the benefit of our students and to mold them as Innovators. We encourage all parents to enroll their wards for this futuristic program.

All interested parents can fill the attached form and pay 300 AED fee to enroll their children for this program.

With Regards,

Mr.Richard Monteiro
Principal
City Private School
Ajman

PARENTAL ACKNOWLEDGEMENT SLIP

I would like to register my son / daughter

of grade.....section..... in the STEM class for the academic year 2025-26.

Artificial Intelligence and Robotics (KG to GRADE 9)

Amount to be paid for the Month of April 2025 to March 2026 – 300 AED

I agree that the fee can be posted to my account.

Once the payment is done there will be no refund.
